Digital Drugs & Legal Highs: Opioid Heaven

Joseph D. Smith

Introduction

Have you ever gotten high off of a QR Code encoded with the molecular formula converted into binary? This is your chance to try it out! The binary that was converted from the molecular formula was then converted into a QR Code, which emulates the sequences of the brain, making you feel high as if the digital opiates and opioids are binding to your receptors, because the QR Code visuals change your brainwaves to give you the desired effect!
